Get the students to read one of the 39 on-line plays eg 'Lightning Larry'.

Perform it in front of other students.

Video the play.

Keep a journal of the learning path of the students (and the teacher).

Ask yourself these questions:

What did the students learn?

What did I learn?

Could the learning have been more interactive?

Was there 'real learning'?

How can I make my teaching more interactive?

How can I make more use of e-learning, in a meaningful way, to enhance learning?

Evaluate this assignment.

Submit video and journal online (or a snippet of them) for others to view.
