## BANNER STANDS ARE IDEAL FOR INSTANT DISPLAYS

Our banner stand quality is the best in the market place and is fully guaranteed. Other companies use less durable, cheaper and lighter materials in their banner stands, which can let you down at the most crucial time.

Banner stands are an exciting presentation medium, giving instant impact. Ideal for promotions, conferences, retail displays and for adding additional emphasis to an exhibition stand. Take it on the airplane with you, the bus or the train. For maximum impact at your trade show or exhibition, try using three stands together, side-by-side.

Our banner stands are printed using high quality digital inkjet technology for stunning images that really stand up to the rigors of exhibition life. We laminate all our graphics with tough scratch-proof crystal laminate on the front and on the reverse.

- › Very easy on your budget - real value for money
- › Lightweight and convenient to carry around
- › Easy to transport
- › Use as stand-alone or to compliment a larger display
- › Available for quick delivery
- › Tool-free assembly
- › Ideal for one person set-up

We cracked open the traditional agency, threw away the shell  
and kept the heart: years of top brand experience and a  
healthy respect for what makes classic advertising work. We  
earn response and reaction by distilling your message into one  
person will want to hear. While others offer 'creative', we deliver  
imaginative, insightful and effective. Where others have  
work delivered by account executive, we deliver in person.

*All about us: 'what if a small agency in a small market decided  
to become the biggest and best in their market. With an inter-  
national reach and impact on the world advertising market,  
way beyond the limiting conventions of their national category'  
It was the articulation of a vision first expressed by Chris  
Cawley, then Managing Director of **Cawley Nea**, around the  
year 2000. At that time in the Irish advertising market Cawley  
Nea was acknowledged as the best of breed boutique  
agency's. Many thought this was our destination. We, however,  
knew it was our point of departure. In 2002 we joined the  
TBWA\ creative community and global network. For us it was a  
giant step towards reaching the goals we had set ourselves.  
Today we are Cawley Nea\TBWA, TEQUILA\Ireland,  
Agency.com, E-Graphics and OMD. Five specialist marketing  
companies integrated into one Big Ideas business.*

This allows for highly targeted communications programs to be segmented by way of gender skew, demographic information, area, lifestyle and locus of risk and/or engagement.

Convenience Advertising has worked with government agencies and organisations for 22 years and has consistently achieved a recall rate of 70 per cent, and on occasion reaching as high recall rate as 95 per cent. Such salient recall patterns amongst our respective target audiences emphasise the high correlation between the Convenience Advertising method and behavioural change.

A4 messages and other collateral are distributed by way of a network of approximately 35 maintenance officers who maintain and report back on any damage or graffiti to messages on a fortnightly basis. These reports are collated and entered into a purpose-built software program, providing distribution and tracking of all communications materials and collateral including a mechanism for measuring uptake or materials and/or replacement rates.

*Communication technology is evolving.*

*Traditionally, the heart of a large company's telephony and voice-messaging systems is a PBX (private branch exchange), which handles extensions, conference calls, call forwarding, and e-mail integration.*

*The problem for most companies, though, is that PBXs cost thousands of euros, have ongoing upgrade costs, and require expertise to manage.*

**Connect IT** offer a complete hosted phone PBX service, with advanced features including auto-attendants, call queuing and voicemail. Whether you need a small business phone system or an enterprise solution, use **Connect IT**.

**Straight Talking - Creative Thinking**

It's all about striking the right balance. And that doesn't mean playing it safe. It means marrying the very best functionality with impactful and engaging creative solutions.

At **Combined Media**, you will find people who are passionate and pragmatic about what they do. Constantly looking for ways to raise the bar, so that the solutions they provide, work harder and smarter.

The game has moved on, digital communications are now judged against and compete with every other medium. Creativity alone is not enough, neither is functionality.

**It's time to combine some straight talking with creative thinking.**

### The Telegael Media and Entertainment Group

is one of Ireland's leading Television and Animation production companies. Telegael works with international producers, distributors and broadcasters to co-develop, co-produce and co-finance television, animation and live action programming for the global market. In 2004, Telegael won an EMMY Award for its animation series *Tutenstein* co-produced with PorchLight Entertainment and Discovery Kids. In 2007 the company won another EMMY for the second series of *Tutenstein* which was again co-produced with Porchlight Entertainment & Discovery Kids.

During 2005 and 2007 Telegael received a further five EMMY nominations for *ToddWorld* (with Mike Young Productions, Taffy Entertainment & The Learning Channel), *Pet Alien* (with Mike Young Productions, Antefilm & Crest Studios) and *Growing Up Creepie* (with Mike Young Productions & Discovery Communications). In 2007 Telegael received an IFTA for the teenage live action series *Aifric*. Telegael is currently developing a number of live-action projects for the national and international television market.

**Knockranny House Hotel & Spa** is a wonderfully luxurious property, situated within the environs of the charming town of Westport. Since opening in 1997, this privately owned hotel has catered for the top end of the four star market and has forged a growing reputation as one of Ireland's finest establishments in that time. Following last year's unveiling of the hotel's superb new destination spa, Spa Salveo, **Knockranny House** has opened over forty new world-class bedrooms and suites this summer, all of which are fitted to the highest international standards, with technologically advanced audio-visual equipment, complimentary broadband internet access, super-king-size double beds and oversize bathrooms as standard. This expansion of the hotel's facilities also incorporates new meeting rooms, a business centre, cocktail lounge and the extension and complete refurbishment of its restaurant and main function room, the Nephin Suite. This superb space, which can now accommodate more than 600 delegates, is extremely flexible with unique natural daylight wells that can be blacked out if necessary, state-of-the-art audio visual and lighting equipment, and various adjoining syndicate and reception areas. **Knockranny House Hotel's** dedicated Conference & Event Team will work closely with you from your event's conception to its creation in order to ensure that every aspect of it is carried out efficiently and professionally.

**Straight Talking - Creative Thinking**

It's all about striking the right balance. And that doesn't mean playing it safe. It means marrying the very best functionality with impactful and engaging creative solutions.

At **Combined Media**, you will find people who are passionate and pragmatic about what they do. Constantly looking for ways to raise the bar, so that the solutions they provide, work harder and smarter.

The game has moved on, digital communications are now judged against and compete with every other medium. Creativity alone is not enough, neither is functionality.

**It's time to combine some straight talking with creative thinking.**

First published in 1952, **Ireland of the Welcomes** portrays the best of Ireland's history, culture and lifestyles to many people worldwide. Some of our readers are Irish-born, some have Irish roots, while others simply enjoy reading about the country which they are planning to visit or perhaps, re-visit.

From the letters and, increasingly, e-mails which our editor, Letitia Pollard, receives, one thing is certain: all our readers know that they will find something to entertain, amuse, alert and educate them about this land of ours.

**Liam De Paor** established his own market-  
ing consultancy in 1998. Prior to this he had  
been MD of a well known agribusiness firm  
where he had responsibility for a substantial  
marketing budget. The de Paor consultancy  
has the experience and media contacts to  
help you optimise the marketing of your  
products/services and to improve your cor-  
porate image.

We have arranged cost effective adverts &  
commercial features in the print media for  
Australian, British, Irish and Scandinavian  
firms. We have also organised syndicated  
radio PR/advertising, copy and direct mar-  
keting arrangements for a wide range of sat-  
isfied clients (All Ireland). So if you need cost  
effective artwork, better brochures, innova-  
tive newsletters, commercial photos etc

*We'd like to take you and your brand on that adventure you  
were talking about, map everything out and work with you all  
the way. Our company is all about people who live and breathe  
the branding process. Whether its innovative design, the edgi-  
est new media, or publishing with passion, we get fired up  
about it and build our client relationships on it. It's hardly a  
blind date - our relationships create commercial success. Every  
brand journey with us starts with a conversation. So let's start  
talking.*

**Red Box Design** is a new design company that evolved from  
John Cowper Graphics in 2007. We communicate visually using  
text and imagery to enhance the image of individuals, compa-  
nies and their products or services, this will help them improve  
their image and grow their businesses. We can take a brief  
from initial concept, through the layout stage and onto final  
proofing and then finally to printing. We are effectively a ONE  
STOP DESIGN SHOP.

Direct Marketing and digital media have changed the demands placed on the cost base and service provision of the postal service. Customers need a more cost effective, user friendly and flexible service. Providing the Universal Postal Service limits the ability of the Royal Mail to be flexible and proactive with both its price structure and its product development. Regional Mail Services will fill that gap with local, tailor made solutions and services fashioned by customer demand.

**Mediacraft** was formed in 1996 as a project management service for the production of Media Assets for business. Since then we have established a strong reputation for service and quality.

Our core activities are the production of Audio and Video assets for business. Our range of services include the production of radio ads, telephone messaging systems, voiceovers for software products & games, corporate videos, training videos, video production for multimedia & websites.

Clients to date include:- Irish Life, BBC, Microsoft, Intel, Department of Justice, Ireland.com, Soft Telecom and many more.

We are extremely flexible in our approach to each job and can provide a complete turnkey service for a media production project or alternatively, easily plug-in to any existing framework and provide just the audio or video components as required.

Our aim is to help ensure that all our clients get the best and we are always prepared to go out of our way to achieve this.

*Subtitles can either be a form of written translation of a dialog in a foreign language, or a written rendering of the dialog in the same language with or without added information intended to help viewers who are deaf and hard-of-hearing to follow the dialog.*

*Subtitles can be used to translate dialog from a foreign language to the native language of the audience. It is the quickest and the cheapest method of translating content.*

*Translation of subtitling is sometimes very different from the translation of written text. Usually, when a film or a TV program is subtitled, the subtitler watches the picture and listens to the audio sentence by sentence. The subtitler may or may not have access to a written transcript of the dialog. Especially in commercial subtitles, the subtitler often interprets what is meant, i.e. meaning being more important than form. On other occasions, the dialog must be condensed in order to achieve an acceptable reading speed. i.e. purpose being more important than form.*

*Many industries require knowledge of a specialised vocabulary to ensure that the reader will understand the translated text. Ever try to follow a manual badly translated from Chinese to English or vice versa? You get the picture. Texts dealing with engineering, medicine or computer software need translators with specialist knowledge in engineering, medicine or computer software. And the same goes for each individual area of specialisation. We respect our customers, and assure them that translations are treated in confidence qualified professional translators working in their native language, and within the specialist areas: this ensures that your translation is linguistically, technically and culturally appropriate for your market. Choice of format is up to you. We don't supply machine translation, but rather a quality translation which is as close in meaning as possible to the original text.*

#### **Interpreting Services:**

*If you need an interpreter for a business meeting, a legal meeting, a factory visit or a full- conference, our confidential client consultation we have the experienced, specialists for you.*

**Dillon Productions** are the premier supplier of customised video training solutions in Ireland and in the UK. We have successfully produced training solutions for the following industry sectors: Construction, Retail, Manufacturing, Food-Processing, Pharmaceutical and Financial Services.

**Covering the following areas:**

Health & Safety Induction, Food Hygiene, Customer Service and Diversity.

At Dillon Productions we believe that our method, style and delivery are unique and that we differ from any other provider of training material within Ireland and the UK. Our method of the training programmes is modular in structure, allowing the trainer to show the clips and then discuss the relevant issues. Our style of the video clips is realistic and informative, they are shot on client locations which brings the training points to life. The professional narration is no-nonsense and to-the-point style. Clients we have recently produced bespoke health and safety training for include Roadstone, Irish cement, Ascon Rohcon, Bristol-Myers Squibb, John Paul Construction, Fingal County Council, Schering Plough and Tara Mines. UK clients include Amec, Merck Sharpe and Dohme, Unilever, Cleveland Police, Swansea University, Severn Trent Water, Interserve, Scottish and Newcastle and DHL.

**Dillon Productions** are the premier supplier of customised video training solutions in Ireland and in the UK. We have successfully produced training solutions for the following industry sectors: Construction, Retail, Manufacturing, Food-Processing, Pharmaceutical and Financial Services.

**Covering the following areas:**

Health & Safety Induction, Food Hygiene, Customer Service and Diversity.

At Dillon Productions we believe that our method, style and delivery are unique and that we differ from any other provider of training material within Ireland and the UK. Our method of the training programmes is modular in structure, allowing the trainer to show the clips and then discuss the relevant issues. Our style of the video clips is realistic and informative, they are shot on client locations which brings the training points to life. The professional narration is no-nonsense and to-the-point style. Clients we have recently produced bespoke health and safety training for include Roadstone, Irish cement, Ascon Rohcon, Bristol-Myers Squibb, John Paul Construction, Fingal County Council, Schering Plough and Tara Mines. UK clients include Amec, Merck Sharpe and Dohme, Unilever, Cleveland Police, Swansea University, Severn Trent Water, Interserve, Scottish and Newcastle and DHL.

**Straight Talking - Creative Thinking**

It's all about striking the right balance. And  
that doesn't mean playing it safe. It means  
marrying the very best functionality with  
impactful and engaging creative solutions.

At **Combined Media**, you will find people  
who are passionate and pragmatic about  
what they do. Constantly looking for ways to  
raise the bar, so that the solutions they pro-  
vide, work harder and smarter.

The game has moved on, digital communica-  
tions are now judged against and compete  
with every other medium. Creativity alone is  
not enough, neither is functionality.

**It's time to combine some straight  
talking with creative thinking.**
