Junior Chamber International (JCI)...

...is a federation of young professionals and entrepreneurs aged between 18 and 40 and is active in more than 100 countries worldwide. JCI was founded in Mexico city on 11th December 1944, when representatives from 8 nations met to create an organisation that would address global concerns. JCI participates actively in the United Nations system, including agencies such as UNICEF and has co-operation agreements with the International Chamber of Commerce (ICC), World Health Organisation (WHO) and UNESCO among others.

JCI's programmes stem from 4 areas of opportunity through which members can acquire / refine leadership skills and benefit society. These are:

BUSINESS: Providing its members with the necessary contacts, leadership and personal growth to develop as young entrepreneurs and business executives.

INDIVIDUAL: Helping members reach their full potential by acquiring experience as decision makers through developing skills as officers and project leaders (local and national) and through certification from its International Training Institute.

COMMUNITY: Believing its members are an investment in the present and future well-being of their communities, JCI endorses the philosophy 'think locally, act globally' and its members carry out thousands of projects every year that make a positive impact on society.

INTERNATIONAL: Realising the need for international collaboration, tolerance and peace, JCI offers members the opportunity to be involved in global issues through international conferences, international training programs, twinning chapters and business exchange.
