

Advance Corrosion Inhibitor Shrinkwrap from Cork's One Stop Boat Shop

Marine Motors Cork Have It All Wrapped Up

Marine Motors Cork now offers **Advance Corrosion Inhibitor** shrinkwrap and stretchwrap. These products have been undergoing testing by strenuously tested for over 10 years with extraordinary results. Advance Corrosion Inhibitor films protect both ferrous and non-ferrous metals from corrosion for years. Advance Corrosion Inhibitor is light years ahead of VCI products on the market today.

- Long Term Protection: will provide corrosion protection for up to 10 years, unlike VCI products with a lifespan under one year.
- Complete Protection: protects both ferrous and non-ferrous metals-and will not harm glass, plastic or other parts of assemblies.
- Eliminates the need to store products in inert atmospheres
- Safety: contains no hazardous materials and requires no cleanup of protective oils or greases.
- Shrink Ability and Long Term Usage: shrinkwrap contains both UV inhibitors and shrink resins for long term use.
- Pricing: Advance Corrosion Inhibitor pricing is very competitive with VCI products currently on the market.
