ProJet

Outstanding Features

- Jet drive
- Compact
- Removable tube system

Smart, fun, assertive

ProJet 350 and 420 (pictured above) models available

The compact profile (0.85 m) of the ProJet makes it perfect for yacht storage in confined areas.

The ProJet planes easily with 4 passengers.

Ideal to pull a skier, the ProJet has a water ski towing ring and a swim platform.

Can you dream of more?

The ProJets are small boats that offer both the security of a RIB and the verve of a jet. You can have confidence in it, the inflatable pontoon guarantees floatation and stability. The powerful Yamaha 80 HP Jet engine takes full advantage of the rigid hull; renowned for its reliability. Fast and great fun, the ProJet planes easily with 4 passengers aboard and is also perfect for water skiing.

Ideal as yacht tenders

The ProJets are low slung; the pilot seat backrest and the steering wheel can be tilted down permitting easy storage in all boat garages. Their light weight means they can be handled by most cranes. The removable pontoon makes for easy servicing and maintenance.

Chic and well equipped

Very elegant, the ProJet range possesses standard equipment that bigger models can envy; a big aft locker, a swimming platform, a water ski towing ring, a bow rail (on the 420), navigation lights and an installed high capacity fuel tank that allows long cruising times.

ProJet Equipment & Specifications

Hull

- Molded non-skid deck
- Bow locker with upholstered cushion
- Mooring ring
- Swim platform
