SHOW Siamese and All Breeds cat Club of Ireland
DATE: 5TH October 2008

My thanks to Ronnie and the Club for inviting me, and to Ms Sezina, my hard working steward, for her help throughout the day. It was lovely to see the Persian Section was the largest section in the Show, and I had some outstanding exhibits, especially in the kitten classes.

AC NON-SELF PERSIAN CHAMPION

GR CH Craig & Bell's GR CH & INT CH VITA NOVA'S DREAMER (Black Silver Spotted Exotic)

Excellent bog boy with bold masculine head, very good broad top of head and well set ears. Round eyes of good orange colour, just a little reluctant to open them today. Snub nose, full leather, wide flat muzzle, full cheeks, good firm chin and level bite. Excellent body, short thick neck, broad shoulders, well muscled legs, large paws, short thick tail. His coat is soft and dense in texture, showing a well defined spotted pattern on a clear silver ground.

AC NON-SELF PERSIAN PREMIER NEUTER.

GR PR Craig & Bell's INT PR SHEERBLISS CLOUD DANCER (Blue Tabby & White Exotic)

Very attractive boy with sweet facial expression. Round head, nicely set ears. Round eyes of very good deep orange colour. Snub nose, good firm chin. Very good short cobby body, muscular. Short well boned legs, round paws. Thick soft coat of good dense texture, tabby areas pastel in tone but showing well defined pattern. Excellent condition and temperament.

RES GR PR Burke's PR AMLY JOE TEDDY (Cream & White BiColour)

Good round head, ears quite well placed. Good round eyes of a nice deep shade of orange; short broad nose, round cheeks, firm chin, good bite. Good cobby body shape, well boned boy, short tail. Fairly full coat, with the coloured areas a nice pastel shade of cream. He just needed more Show preparation to make him really sparkle

BLACK ADULT, FEMALE

1 & CC W/H

2ND Burke's ABERCHALDER FULLOGRACE

This girl has quite a small immature head for her age (2 years 4 months) Ears set a little high, very nice round orange eyes, medium length nose, round cheeks, good chin and bite. Cobby body shape, short legs and tail. Silky coat, quite sound. However she has a pronounced protruding Xiphisternum that is obvious at all times, my reason for withholding her first place and CC.

WHITE ORANGE-EYED ADULT FEMALE

1 CC & BOB McKeague's GR CH ADCINLO CANDYFLOSS

A very pretty feminine cat. She has an excellent round, well-balanced head and tiny ears. Large orange eyes, very round and expressive, snub nose, round full cheeks, very good muzzle and chin, slightly undershot bite. Very cobby in shape, short well-boned legs, short plume tail. Full very well prepared coat that flowed.

TORTIE & WHITE ADULT

1 (CC W/H) Murtagh's CATS CASTLE ARIEL

Good round head, good ear set. Round orange eyes, but with dirty gutters. Short snub nose, good chin and level bite. Good cobby body shape, short legs and tail. She was rather 'tucked up' around the kidneys, her coat lacked undercoat today; she needed more preparation and generally lacked Show condition. A nice cat but not looking good enough for the CC today.

BROWN TABBY ADULT FEMALE

1 CC & BOB McKenna's HILLYPAWS JEWEL

An adolescent girl of just 1 year. She has a nice round head that still needs to broaden and fill out, quite good ear set. Round eyes of reasonable colour. Very cobby, well-boned legs, short tail. A very nice silky textured coat that shows a good classic pattern with clear black markings on a bronze agouti ground.

TORTOISESHELL COLOURPOINT ADULT

1 CC & BOB Malcolmson's RIVETTA ROSEBUD (Seal Tortie Point)

Good round head, neat ears, round eyes of good even blue. Short broad nose, round full cheeks, good chin, fractionally undershot bite. Very cobby in shape with excellent short, well boned legs and a short full tail. Full soft coat with a well matched mask and points, all well broken, although I would prefer a little more red. Excellent preparation and condition

2 McKenna's JOHNNYCAKE SPARKLER (Seal Tortie Point)

Very good top of head and ear set. Round blue eyes showing slight nystagmus today, particularly in the right eye. Round cheeks, good chin. Very good cobby body shape, short legs and short full tail. Very good mask and points, all well broken. Again, shown in excellent condition.

AC EXOTIC ADULT MALE

1 (CC W/H) Lenihan's COOMAKISTA OICHENGRANREALT (Black)

Quite good round head, ears quite well set, round eyes but showing distinct green tinge. Medium short nose, bite misaligned. Fairly cobby in shape, quite nice coat texture.

AC EXOTIC ADULT, FEMALE

1 CC & BOB Murtagh's CHARLORIAN LITTLE WHITEROSE (White)

Pretty young cat that has improved since I judged her last March. Round head, quite good ear set. Round orange eyes, nose a little long, round cheeks, good chin. Cobby body shape, short legs and short tail. Nice soft coat that was dense and of good texture.

Very good round head, well set ears, round deep orange eyes, snub nose, full cheeks, good firm chin, good bite. Cobby body shape, short very well boned legs, round paws, short thick tail. Lacking a little undercoat today, he shows a very good classic tabby pattern in red on clear silver ground.

2 Craig & Bell's SHEERBLISS MIRROR IMAGE (Tortie Tabby & White)

An exquisite girl, just 14 months, with a round head, good ear set, round deep copper eyes, snub nose, full round cheeks, good chin and level bite. Very cobby. Wonderful coat for texture, colour and pattern. Ran her dad close for BOB today.

A super kitten. Very good head, good wide top, well placed ears, round orange eyes, snub nose, full cheeks, good chin. Excellent cobby body, short full tail. Shows tortie pattern to her head, face and shoulders, and a fully coloured tail. Excellent weight and condition, very well prepared.
